

Features

- High temperature valve mounting kit for actuated valves
- Increases allowable media working temperature
- Conforms to international standard ISO5211/ DIN3337
- 304 stainless steel construction
- ISO5211 sizes F03 to F10 mounting
- Use as a wall mounting bracket for actuated valves

Applications

High temperature mounting kits are used to increase the allowable media operating temperature of an actuated valve assembly. The temperature rating of the valve and actuator should be taken into consideration when using a high temp kit. Mounting conforms to international standard ISO5211/ DIN3337. In addition, the bracket can be used to wall mount an actuated valve assembly.

Operation

Stainless steel formed bracket and drive adapter mounts between a valve and actuator providing additional air cooling to the actuator.

Description

High quality laser cut formed stainless steel brackets with precision machined couplers are designed for easy installation using the international standard ISO5211 mounting pattern. Stainless steel coupler is machined with a square male output and female square input drive. Two pair of additional holes on each bracket side are provided for mounting to customer supplied channel, angle iron or other custom brackets.

Construction

Bracket	Formed 304 stainless steel
Drive Coupling	304 stainless steel
Fasteners	Stainless steel 18-8

High Temp/Wall Mounting Kit

Stock Number	Description	ISO 5211 Valve Mounting	ISO 5211 Actuator Mounting	Drive Coupler male x female (mm)	Bracket Height (mm)

588127	HT Mounting Kit F07/ F10-22x22mm	F07/ F10	F07/ F10	22 x 22	50

Note: Kit includes bracket and coupling, preinstalled when ordered with a Valworx valve assembly. When buying a loose kit (uninstalled), no fasteners are provided unless a Valworx valve assembly stock number is provided when placing an order.

Easy Wall Mounting

Holes are provided in the side of the formed high temperature bracket allowing for mounting actuated valve assemblies to customer supplied channel, angle iron or other custom brackets.

High Temperature Mounting Bracket

Stock Number	Description	ISO 5211 Valve Mounting	ISO 5211 Actuator Mounting	Bracket Height (mm)
588147	HT Bracket F03/ F05 x 50mm	F03/ F05	F03/ F05	50
588155	HT Bracket F05/ F07 x 50mm	F05/ F07	F05/ F07	50
588156	HT Bracket F07/ F10 x 50mm	F07/ F10	F07/ F10	50

Note: High temperature bracket only (no coupler or fasteners).

High Temperature Mounting Coupler

Stock Number	Description	Male End Square (mm)	Female End Square (mm)	Used with Bracket Height (mm)
